PROFESSIONAL SUMMARY

Self-taught developer and open-source contributor with experience across multiple programming languages. Created and maintained **tdlib-android**, an automated precompiled TDLib distribution for Android supporting all 4 CPU architectures with Gradle integration. Built a tourism portal for **Sitamarhi, Bihar** and a starred-repo productivity tool. Experienced in full-stack development with Next.js and Supabase, CI/CD pipeline automation on GitHub Actions, and cross-platform tooling from Kotlin/Android to Go CLI applications.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, Kotlin, Go, Java, Rust, Swift, Dart/Flutter, Shell, PowerShell, PL/pgSQL, HTML, CSS, Dockerfile
Android	Kotlin, Jetpack Compose, Coroutines, Flow, Room, Android SDK, Gradle, TDLib
Frontend	Next.js, React, TypeScript, JavaScript, HTML, CSS, PWA
Backend & DB	Supabase, PostgreSQL, PL/pgSQL, REST APIs
DevOps & Cloud	GitHub Actions, CI/CD, Docker, Vercel, Cloudflare Pages
Tools	Claude Code, Git, AI-Assisted Development, Prompt Engineering

PROJECTS

tdlib-android

Kotlin • Shell • Dockerfile • GitHub Actions

github.com/AkashPriyadarshii/tdlib-android

Automated precompiled TDLib distribution for Android. CI/CD pipeline builds and publishes binaries for all 4 Android ABIs — arm64-v8a, armeabi-v7a, x86, x86_64 — with automatic versioned releases. Includes Kotlin Coroutines/Flow wrappers for drop-in Gradle integration. Sustained maintenance since 2021.

Sitamarhi Tourism Portal

HTML • CSS • JavaScript • Python

sitamarhi.pages.dev

Tourism and information portal for Sitamarhi, Bihar — district with significant cultural and religious heritage. Built and deployed on Cloudflare Pages. Showcases local attractions, temples, and travel information for visitors.

Personal Portfolio

TypeScript • Next.js • Supabase • PL/pgSQL

[akashpriyadarshi.vercel.app](#)

Production portfolio and operations hub. Built with Next.js 16 and Supabase (PostgreSQL with Row-Level Security). Features HMAC SHA-256 magic-link authentication. Demonstrates continuous iteration and CI/CD discipline.

My-Starred-Repos

JavaScript • Python • PWA • GitHub Actions

[github.com/AkashPriyadarshii/My-Starred-Repos](#)

Auto-updating GitHub starred-repository tracker. Progressive Web App with glassmorphism dashboard and daily GitHub Actions sync pipeline. Features 6 theme variants.

awesome-agentic-stack

Shell • PowerShell

[github.com/AkashPriyadarshii/awesome-agentic-stack](#)

Curated directory of AI/agent tools. MIT-licensed community resource for the AI engineering ecosystem with an emphasis on quality filtering.

sbi-kiosk-id-generator

TypeScript

[github.com/AkashPriyadarshii/sbi-kiosk-id-generator](#)

TypeScript utility for generating structured kiosk identifiers. Demonstrates proficiency in typed functional programming and utility library design.

claude-sync

Go

[github.com/AkashPriyadarshii/claude-sync](#)

CLI tool written in Go for synchronizing content with Claude. Cross-platform command-line interface showcasing systems-level Go programming.
